

**Galaxy Plus**  
Heavy Duty

- High anti-vibration and anti-shock resistance thanks to application of Glassmat separator and gluing of plate packets

**Galaxy Plus**

- Optimal plate design and special formula of battery active mass which guarantee enhanced inner battery construction
- High comfort and safety (anti-explosion insert)
- "KAMINA" system of central battery ventilation
- Magic Eye (battery charge status indicator)
- Ergonomic handles

### Starter Batteries

- Suitable for **Tractors, Agricultural Machinery, Trucks** and **Buses**
- Batteries supplied filled with acid
